

DYNAHEAT™ HEAT PUMP

At Quantum Deals we are committed to saving you money on your energy bill. From lighting to solar we are now proud to present the Dyna-heat™ Heat Pump

- ★ Loaded with features for piping hot water
- ★ Comes in 3 model sizes
- ★ Patented design and fully approved
- ★ Uses surrounding air to generate heat

Huge savings

Save up to \$1700 a year on your hot water bill with a new heat pump

Covered under 3 Rebate Schemes

Eligible customers can receive a brand new hot water unit at no cost! Approved under 3 State and Commonwealth energy rebates, and meet Australian Safety Standards

Latest Technology

Uses the latest energy saving technology to provide instant hot water

Save with the latest in Eco technology

The Dynaheat™ Heat Pump Series is a new generation of hot water heat pumps that uses the surrounding air to generate hot water.

Quantum Deals in partnership with Eco Alliance has released the series in 3 models: 170 Lt, 270 Lt and 320 Lt.

The Dynaheat™ Heat Pump range uses smart, renewable energy technology to extract energy from the surrounding air and utilizes that thermal energy to generate hot water. This method of energy extraction means the heat pump doesn't have to rely on conventional gas or direct sunlight to provide hot water for your home or business.

*Fully approved under 3 Government rebate schemes for eligible customers.

Model	ECO-320LHPWH	ECO-270LHPWH	ECO-170LHPWH
Running ambient air temp.	-7C/+40C		
Outlet Water Temp.	setpoint±1C		
Minimum Inlet Water Temp.	3C		
Maximum Inlet Water Temp.	70C		
Power supply.	230V/50Hz		
IP rating.	X4		
Storage size.	320L	270L	170L
Heating capacity	2.3 kw		
Rated input	0.55 kw		
Rated current	3.0 A		
Heating capacity	4.3 kw		
Rated input	2.55kw		
Rated current	11.7 A		
COP ²⁾	3.8		
Dimension(DxH) mm	Φ700x1860	Φ620x1960	Φ620x1930
Packing(WxDxH)mm	800x800x2000	720x720x2100	720x720x2070
Net/gross weight kg	90kg	75kg	70kg

Packed with features

Frost protection, fast heating, quiet operation, digital interface and more. With these advanced features you can have your hot water suited to your household needs. Customise or automated, this hot water unit is built to last.

Save up to \$1700 a year

By extracting heat from the surrounding air the Dynaheat™ heat pump can provide 4.8 units of free heating per unit. Recent testing has proven households can save up to \$1700 a year! With the Dynaheat patented technology you could save more in those cold winter months.

Fully Approved

The Dynaheat™ Heat Pump is fully approved under the Victorian Energy Efficiency Target, Small Scale Energy Scheme and the Victorian Government Hot Water Rebate Scheme. People meeting the eligibility requirement can receive this innovative heat pump at no cost.
